## Skills

C Programming Language

Linux System Admin

X86\_64 Linux Assembly

Full Stack Developer

## About Me

I am a high school student who is interested in and passionate about the field of cybersecurity. Currently, I am developing my skills in areas such as Malware Analysis and Binary Exploitation in the Linux environment. I have spent two years developing my skills in cybersecurity, and I continue to work on improving them. During this process, I am also trying to improve myself in topics such as Linux system administration and Linux kernel development as a hobby.

## Education

### Secondary School

2016 - 2020

Ticaret Odası School

### High School

2021 - 2024

Suzan Mehmet Gönc Vocational and Technical  
Anatolian High School

## CERTIFICATES

### Introduction to Cyber Security

Cisco Network Academy

03/2021 - Present

### C++ Programming Language

Boğaziçi Institute

04/2021 - Present

### ITU Technology Conference

Istanbul Technical University

04/2021 - Present

### Introduction to Python Programming

Global AI Hub

09/2021 - Present

### Java Programming

BTK Academy

12/2022 - Present

### Git Tutorial

Akdeniz University

04/2021 - Present

### Cyber Security Quiz for Everyone

Berqnet

04/2021 - Present
